

# Words of Wisdom

## ACMA 2015-2016 Chapter of Excellence/Chapter of Merit Winners

### Illinois

Send in the required documents early so everything can be double checked. Review the Quick Checklist in the Chapter Manual often and anticipate what will be due in the next quarter. The heavy lift for document submission is in February so involve the entire Board of Directors so there are many eyes on the checklist and the list of documents.

- Candice Krill

### Northern California

Our chapter has always used the Chapter of Excellence (COE) requirements as our chapter goals. All of our Board Meetings focus on those goals and we discuss COE in each of our monthly calls. It is always there in our discussions. COE also is the focus of the Past President – she keeps us up to speed as well.

- Peggy Tyndall

### Connecticut

The CT Chapter is very lucky to have an incredibly talented and dedicated Board of Directors and committee members. They strive to achieve goals of the chapter and to best serve members. The #1 focus is always about CT Chapter members – how to support them in their profession, keep them updated with education/networking sessions and assist them in achieving the ACM™ certification. **Satisfied, engaged members equate to chapter excellence.**

- Nancy Jubinville

### South Carolina

The South Carolina Chapter prides itself in a great working relationship with our ACMA chapter manager; regular meetings; constant communication and engagement and teamwork from the members, board and past ACMA South Carolina leaders. We attribute our success for achieving Chapter of Merit this year to the collaborative work of an engaged South Carolina chapter.
