

## THE AEG INSIDER

### Got what it takes? Of course you do!

Strong leadership within AEG is vital to its success. Being a leader of the association also plays a very important role in the personal and professional development of our members. Leaders in the association utilize valuable skills that are transferable to any profession – project management, communication, public speaking and more.

And it's fun, too! Another benefit to being a leader in the association is getting to know and work with other AEG members from across the country. In the process, you build lasting friendships and connections nationwide.

All AEG members – student and full Members – are encouraged to take on leadership roles such as Committee Chair, Committee Member, Section Officer and Board of Directors Member (Section Chair). These roles enable you to give back to the association, increase your understanding of the organization, provide you with networking opportunities among AEG members throughout the country and enhance essential skills you can use to grow your career.

Still not convinced? Ask these leaders what it's all about:
