Regional-Scale Groundwater Geoscience in Southern Ontario

Open House

February 28th and March 1st 2018

9h00 – 16h00

Delta Hotel, Guelph, Ontario

The 2018 open house for the Southern Ontario Groundwater Community will consist of two days of presentations and posters hosted collaboratively by the Ontario Geological Survey, the Geological Survey of Canada and Conservation Ontario. Each of the two days will involve presentations by Federal, Provincial, Academic, Conservation Authority and private sector collaborators involved in groundwater studies in southern Ontario. The objective of the open house is to update groundwater practitioners on the activities of the respective agencies and collaborators.

Day 1: Ontario Geological Survey and Geological Survey of Canada

Presentations will address issues pertaining to:

- The OGS-GSC collaborative projects in southern Ontario
- OGS provincial mapping activities and findings.

Day 2: Conservation Authorities: Partnerships that deliver hydrogeological knowledge

Day 2 will showcase current CA geoscience partnerships with presentations addressing issues pertaining to:

- geoscience research at Conservation Authorities
 - hydrogeological data and model management.
