

## Project Management Essentials

One day of self-paced online study followed by two days in-class:

April 30 - May 1, 2018

This course is designed to give new project managers and project team members an overview of the various tools and techniques of project management and the key elements needed to deliver successful projects. This course covers the complete project lifecycle from initiating, through project planning and execution, to project close-out. 21 PDUs.

## PMP® and CAPM® Exam Preparation

May 7-11, 2018

This course is an intense review of exam material. At the beginning of each module, there is a practice pre-test before the presentation of the course material which is followed by realistic, challenging, multiple-choice questions. This course is aligned with the PMBOK® 6th Edition and includes access to an online exam simulator. 35 PDUs.

New for 2018

## Procurement and Contract Management

May 2, 2018

This course will guide you through procurement practices, solicitation of bids, contract negotiations, touch on contract law, and provide the basic tools required for project managers in these areas. This course will also offer an insight into the role of the procurement officer on a project team. 7 PDUs.
