

CTTAM Prepares to Celebrate 50 Years of Success Leading Manitoba's Technology Professionals

On November 6-7, 2015, the Certified Technicians and Technologists Association of Manitoba (CTTAM) will celebrate its 50th anniversary. With the theme "building on the past, grounded in the present and looking to the future" CTTAM will host a two day celebration in Winnipeg that will showcase five decades of achievements and accomplishments as the leader of Manitoba's certified technicians and technologists.

Friday November 6th will focus on the launch of CTTAM's new Mentorship Program that provides a great opportunity to network with professionals representing a cross-section of industries and professions from across Manitoba.

The Saturday November 7th program includes the 50th Annual General Meeting culminating with the 50th Anniversary Gala Dinner that will take place at the Royal Aviation Museum of Western Canada.

CTTAM invites you to join them in celebrating this remarkable milestone in the company of old and new acquaintances as they explore their past, present and future.
