

Weagant Farm Supplies Limited
Serving the agricultural community since 1953.
Winchester & Brockville, ON

Weagant Farm Supplies Ltd was established in South Mountain, ON in 1953 by Fred & Anita Weagant and is now managed by 2nd and 3rd generation members of the Weagant family. The business has grown and now supports 67 employees at three locations in Eastern Ontario known as Weagant Farm Supplies and Topline Trailer & Equipment Sales.

New Holland and Kubota and a number of complimentary short lines round out the product line up. The dealership is constantly investing in hardware upgrades and in training of staff in all segments of the business, keeping up with the pace is always a challenge.

The company is focused on providing customer service and equipment to meet ever-changing needs. The equipment has grown in size and complexity, as has the customer base. While concentrating on the local market, they have sold some units as far away as Jamaica, China, Saudi Arabia, Thailand and a few countries in Africa.

Weagant Farm Supplies is proud to have had multiple members of their management team serve on different CEEDA (ORFEDA) boards over the years. That experience reinforces how important CEEDA is to the industry as a whole. Part owner, Stacey Weagant says, "CEEDA is in our corner. CEEDA staff is constantly on the lookout for changes in legislation that will impact our business, reviewing dealer agreements for compliance with Ontario legislation, devising and revising programs to offer tailored solutions and more. CEEDA is a powerful advocate for dealer's interests."
