Our Readers
are Satisfied.

(Doesn't mean we are.)

Some 85% of readers say *Better Farming* is "excellent and very useful to my farming operation." And 15% say it's "good and useful."

This high approval rating is exceptional, but our goal is "continual improvement" and we are working hard to achieve that every month.

We promise to continue to be your trusted source for insight, analysis and investigative reporting on Ontario agriculture.
