

FACULTY OF APPLIED SCIENCE - SCHOOL OF ENGINEERING

As one of the world's leading universities, The University of British Columbia creates an exceptional learning environment that fosters global citizenship, advances a civil and sustainable society, and supports outstanding research to serve the people of British Columbia, Canada and the world. The School of Engineering invites you to join us in achieving UBC's new vision.

The Faculty of Applied Science's School of Engineering at UBC's Okanagan campus has assembled world-class faculty and developed an innovative engineering curriculum to offer undergraduate and graduate engineering degrees in Electrical, Civil and Mechanical specializations. The campus is situated in one of the most scenic and appealing regions in Canada and offers faculty and students an intimate learning environment and exciting opportunities for interdisciplinary and region-centered research. The School of Engineering is located in a new state-of-the-art building completed in 2011.

The School of Engineering invites outstanding individuals to apply for the following position at the Assistant, Associate or Full Professor rank. Applicants must have strong records demonstrating outstanding research, as well as a commitment to quality teaching at both the undergraduate and graduate levels. The successful applicant must have a Ph.D. in civil engineering or related discipline and should either have, or be eligible to pursue, registration with the Association of Professional Engineers and Geoscientists of British Columbia.

Area of Priority

CIVIL - Industrial Infrastructure

The desired research and expertise are in oil and gas, liquid natural gas (LNG), and mining industrial infrastructure. Relevant focus areas are one or more of design, construction, operation, monitoring/modelling, management, and mitigation of environmental impacts associated with natural resources development activities.
