The 49th International Wood Composites Symposium in Seattle, Washington, April 21-22, 2015. This year’s Symposium offers an industry-driven forum for wood composite and wood plastic composite customers, producers, suppliers, and researchers to focus on competing demands and opportunities. Industry leaders will discuss global economic outlooks, fiber supply and the latest product and process improvements for our industry.

Symposium topics will include:
- Fiber, particle, strand, and veneer composites
- Wood plastic composites
- Customer expectations
- New products and markets

The featured keynote speakers are Lynn Michaelis, Partner, Forest Economic Advisors and Kelly Shotbolt, President, Arauco North America.

The two day event will be held at the Motif Hotel (formerly Red Lion on Fifth Avenue). Visit the International Wood Composites Symposium site to learn more and register for this event.
