

Kansas Foundation for Medical Care Patient Safety Video Contest

Every healthcare setting has impact on the overall delivery of safe healthcare.
Keeping consumers safe is the top priority.

The Kansas Foundation for Medical Care (KFMC) invites Kansas hospitals, physician offices and nursing homes to participate in Patient Safety Awareness Week. Produce and submit a 2-3 minute video promoting patient safety in your organization. Send entries (via CD/DVD) to KFMC by *February 27, 2015*. Please submit entries in Windows Media Video Format (wmv).

This is a great platform to highlight your team's commitment to patient safety. Give your staff a chance to show their pride, use their creativity, and promote patient safety in a unique way.

All entries will be judged by a panel of Kansas stakeholders. The winners of the contest will be announced during Patient Safety Week, *March 1-8, 2015*.

\$500.00 Cash Prize for the Winner

For more information about Patient Safety Awareness Week and examples of videos, visit kfmc.org.
