**AFFORDABILITY**

Our company is here because the teacher who developed the program and worked with students for over forty years wants to share the unbelievable successes with others. We know we need to have the lowest prices possible to do so.

**USER FRIENDLY**

The programs are designed to either enhance your current program or be used independently. Remember – the programs serve Kindergarten through 6<sup>th</sup> Grade.

**You can progress at whatever pace best suits your needs.**

The *Rescue the Students Now* program with the beginning sound-symbol associations, the digraphs, and the vowel pieces launch the students into rapid reading success. For students who are just learning to read or who have been struggling, this is a real confidence and self-esteem booster.

The unique aspect of *The Seven Phases of Spelling* is that it is ONE BOOK that can be used in grades 2-6. This encourages students to continue on an upward spiral, but allows for 'going back to review.'
