

LEARNING OBJECTIVES

This day-long program will cover the problems and issues that most locate staff encounter on a daily basis. Far from being a discussion forum, we will help locate staff recognize the contributing factors to the problems they encounter, and more importantly, learn what steps to take to solve them. A hands-on solution to real world problems, to make better locators!

SOME OF THE SUBJECTS INCLUDED ARE:

- An explanation on how the choice of locate signal/frequency or grounding techniques can create badly distorted fields that interfere with your ability to accurately map out your buried utilities.
- Revealing how and why signals “jump” or “spill” on to other buried facilities and how to first recognize it and then react to it.
- How the signals we use to locate are created, and what determines where they go, and why. Also, why don't they go where we want them to??
- Why some of the readings we hope to use to confirm the accuracy of our locates fails in some cases, and works perfectly in others.
- Describing the process used to locate empty pipes or conduits.
- What are the steps to take to ensure and confirm an accurate locate, even in badly congested areas.
- What are the best steps to take to find broken or damaged conductors: either pipes or cables.

VIVAX METROTECH

This program is led by Dave Wulff of the VIVAX-METROTECH CANADA Corporation. Dave is the most widely recognized and acclaimed utility locate trainer in Canada, and has personally provided this type of training to more than 15,000 technicians from all utility types during his 20+ years in the field.

This program does not promote any specific brand of locate gear, but promises that you'll learn more about the way your locate gear works. He will focus on how and why they work, not on which buttons to push to turn them on. His structured approach to training is fast-paced, entertaining and meaningful; participants have told us so, year after year.

We're so confident that you'll benefit from this program that if you feel we did not deliver, we will give you your money back.

LineStar is a complete one stop shop for tools, safety equipment and apparatus to the Power, Telephone, Cable TV and Oil/Gas companies and their contractors.
