## FEDERATED INSURANCE RISK MANAGEMENT ACADEMY<sup>SM</sup> SEMINAR OFFERED SEPTEMBER 12-14, 2016

Businesses that integrate risk management into their overall company culture are generally more successful at controlling losses and protecting profits. With that in mind, Federated Insurance Risk Management Academies<sup>SM</sup> seminars are designed to help your designated risk manager target the risk management concerns specific to the petroleum industry.

These in-depth, 2½-day educational sessions held at Federated's home office in Owatonna, Minnesota, concentrate on helping attendees

- **learn** the exposures specific to your industry,
- **connect** with peers from across the country, and
- **apply** risk management best practices within your business.

Because of the partnership between the Petroleum Marketers Association of America and Federated Insurance, there is **no charge** to attend this training seminar, and you do not have to be a current Federated client. Attendees are responsible only for air and/or ground transportation to and from Owatonna, lodging, and incidental meals.

Class size is limited to 25. To reserve your spot in the upcoming session, or for more information, please contact Royetta Spurgeon at Federated Insurance by calling 507.455.5604 or e-mailing [drm@fedins.com](mailto:drm@fedins.com).
