

Maine Energy Marketers would like to welcome our newest members McFarland Spring Corp. Look them up at <http://mcfarlandspring.com/> or give Jim Parsons a call 207-797-6271

McFarland Spring has a proud heritage, dating back to 1907, as a blacksmith shop, providing vehicle springs at fair prices to thousands of satisfied customers.

Vehicle spring repair remains one of their core services. If your truck sags, rides too hard or soft, sways or has broken springs, the experienced staff stands ready to solve your vehicle suspension needs.

McFarland Spring also offers front end alignment, driveline and brake services.

They also service king pins, ball joints and other suspension & steering parts as needed to ensure proper alignments and vehicle safety.

Being a full service suspension, brake and steering shop, allows McFarland to prepare trucks for snow plows & sand/salt spreaders.
