

NABE President met with the First Lady of Japan

Dr. Margarita Pinkos, NABE President meeting with the First Lady of Japan in the Palm Beach County School District during the Prime Minister of Japan's recent visit with President Trump at Mar Lago, Florida. The First Lady of Japan was so natural! Preparing sushi with the kids and interacting with everyone. Margarita Pinkos remarked that it was a great honor not only for the district but the exposure and international relationships built with the First Lady of Japan and the students, teachers, administrators and parents.

Congratulations Margarita on this very prestigious honor of meeting the First Lady of Japan and sharing her company with the students of Palm Beach County. This is quite an honor and a very special "First for NABE"

Thanks for sharing this very exciting experience and continuing to show great leadership in keeping NABE on the World Stage.

"¡Sí se pudo!"

Santiago
