Law Enforcement on Roadside Testing for Impairment

Speaker: Ms. Kimberley Greener

Impaired driving is a criminal offense that impacts everyone. The choice to get behind the wheel after consuming alcohol and drugs has long-term effects on all roadways utilizers. As such, Bill C46 is currently being debated to assist with the investigating of Impaired drivers. Dr. Kim Greener is a 19-year member of the Toronto Police Service, where she has spent the majority of her career in Traffic Investigations. She is a qualified breath technician and field instructor. She has been involved with the Drug Evaluation and Classification Program as a standardized field sobriety testing officer (SFST) and a drug recognition evaluating officer (DRE) for 10 years. She is also an instructor for both of the SFST and DRE programs.

Ergonomic Exposures: Office Ergonomics, Special Attention to Sit/Stand

Speaker: Dr. Jack Callaghan

Sitting and the associated negative health outcomes have gained a lot of media attention recently, resulting in a threefold increase in public attention to the topic over the past 5 years. Jack P. Callaghan holds the rank of Professor in the faculty of Applied Health Sciences at the University of Waterloo. He is director of the Centre of Research Expertise for the Prevention of Musculoskeletal Disorders (CRE-MSD) and holds the Canada Research Chair in Spine Biomechanics and Injury Prevention. Dr. Callaghan is a Canadian Certified Professional Ergonomist (CCPE), is cross-appointed to Mechanical and Mechatronics Engineering, and received the Career Award from the Canadian Society for Biomechanics in 2014.
