

# TO THE RESCUE

**A documentary about Canada's patchwork search and rescue system. Why is it sending out its own SOS call?**

**Thursday, January 16, 2014 at 9 pm (9:30 pm NT)  
CBC Television's Doc Zone**

As more urban adventurers seek recreational thrills than ever before, search and rescue teams are pushed to the limit trying to save them. GPS technology – and the assumption that help is just a cell phone call away – have changed the way we play, but the rescue system is chronically underfunded and struggling to keep up with the new demand.

**TO THE RESCUE** follows dramatic searches as they unfold, and finds a network patched together with volunteers who risk their own lives to save others.
