

FOR IMMEDIATE RELEASE

17 March, 2014

Rob Harrington Joins CSI

LAKEWOOD, WA – Compliance Services International (CSI) is pleased to announce the addition of **Rob Harrington, Ph.D., D.A.B.T.** as Principal Consultant. Rob will provide consulting services on various CSI regulatory initiatives. This exciting new addition to our staff comes as CSI prepares to enter its 26th year of service to the chemical industry. Since 1988, we have expanded our client base, extended our international outreach, and increased our visibility and depth as a regulatory and scientific consulting firm. This period is marked with milestones, turning points and retooling as we endeavor to stay ahead of events and anticipate our clients' changing needs. We continue to face new and emerging regulatory/scientific challenges with our clients through our staff who work from Maryland, Massachusetts, Minnesota, North Carolina, Oregon, Texas, Washington State, and Europe (Edinburgh, Scotland). We are pleased to make Rob's talents available to you and ask you to join us in welcoming this seasoned professional to our team! Rob will be working from his office in Illinois.

Rob Harrington
Principal Consultant

Rob is a Board Certified Toxicologist – Diplomate of the American Board of Toxicology (D.A.B.T.) and brings over 20 years of professional experience in regulatory and safety specializing in several areas of consumer and professional products. His experience encompasses projects in various chemical sectors including agrochemicals, consumer products, and specialty

chemicals. Visible at professional gatherings, Rob has participated in trade association activities and interacted with regulatory authorities and NGO's worldwide to shape industry objectives. Rob is a recognized industry leader with an extensive background in regulatory compliance and scientific expertise working with government agencies including the CPSC, FDA, EPA, OSHA, Health Canada and their International counterparts.

Rob holds a B.S. in Molecular Biology from the State University of New York at Albany and a Ph.D. in Toxicology from the University of Cincinnati, School of Medicine. He began his career at the U.S. Environmental Protection Agency (EPA) designing and conducting toxicological studies. Further into his career, Rob designed, contracted and evaluated all insecticide, disinfectant and antimicrobial toxicity studies for consumer products with S.C. Johnson and Son, Inc. Prior to joining CSI, Rob was Director, Regulatory and Safety for Blyth, Inc., where he developed and managed corporate regulatory functions, interacting with government agencies on product registration, compliance, safety, toxicology and labeling issues. Previous employment includes Senior level positions with Ecolab, Inc., Monsanto Company, and Nabisco Company.

Rob will interact closely with registration specialists and environmental scientists at other CSI offices from his office in Illinois. His talents enhance the capabilities of our consulting team to deliver professional strategies in meeting the diverse needs of our clients. Rob can be reached at RHarrington@complianceservices.com, 630-222-7624 or by contacting our Lakewood office.
