

Changes to Transport Canada's AAIR Program

Effective 2016, in the early weeks of January each year, Transport Canada (TC) will send electronic notifications of the Annual Airworthiness Information Report (AAIR) to Canadian aircraft owners with a valid email address. This practice will reduce TC's environmental footprint and make better use of public funds. The notification will include:

- A web link to the Continuing Airworthiness Web Information System (CAWIS); and
- Instructions on how to complete the AAIR online.
Note: Owners will need their AAIR access code, which they can find on the top right corner of any AAIRs sent in the past or by contacting the AAIR division at TC.

Going forward, the AAIR/Fleet Report due date for all aircraft is now March 30 of each year.

Note: The AAIR due date is not related to the annual inspection date. The AAIR requires the date of the most RECENT annual or 100-hour inspection, which could have occurred in the previous calendar year.

Reminder: To make changes to a Certificate of Registration, including address changes, aircraft owners must contact their regional registration office at 1-800-305-2059. Simply indicating a new mailing address on the AAIR form (hard copy or online) **will not** update the Certificate of Registration or mailing address.

For any question or concern related to AAIRs, please call TC's AAIR division toll free at 1-888-663-3639 or send an email to cawwebfeedback@tc.gc.ca.
