Quality Indicators in Gynecologic Cytology: Recommendations for Best Practices

Jennifer A Brainard, M.D.

Section Head, Cytopathology

Cleveland Clinic, Cleveland, Ohio

1. Understand the limitations and strengths of various quality measures and how to best apply them in a laboratory quality assurance program
2. Be familiar with recent proposals of the CAP Gyn Consensus Conference regarding monitoring performance of cytotechnologists and pathologists.
3. Be familiar with recent ASC task force proposal regarding screening workload limits for cytotechnologists
