

**Congratulations to the 20-21 CASC Emeriti Foundation Scholarship Winners:
Carolina Hernandez Osorio & Emmanuel Garcia
CASC Emeriti Foundation Scholarship Program**

The California Association of School Counselors (CASC) Emeriti Scholarship was founded in 2016 to encourage talented and innovative students to pursue leadership roles in the field of school counseling. This year, CASC Emeriti awarded two students who demonstrate a propensity toward leadership in the school counseling field. This scholarship is available through the generosity of the CASC Board of Directors.

Let's congratulate the following two students for being the recipients of the 20-21 CASC Emeriti Scholarship:

Carolina Hernandez Osorio is a current graduate student in the M.S. Counseling & Pupil Personnel Services at California Lutheran University. She emigrated from El Salvador at the age of 15. Despite the language barrier and leaving her mother and 3 younger siblings behind, she graduated from high school in 2.5 years. Shortly thereafter, she enrolled at Rio Hondo Community College and then transferred to UCLA where she earned a Bachelor's Degree in Psychology. As the oldest of 6 siblings, she has always been a role model to instill an appreciation for education in her younger siblings and all those around her. She is a lifelong learner and hopes to inspire her future students and guide them in their educational journey, despite the barriers or obstacles they might find along the way.

Emmanuel Garcia is a first generation college graduate striving to obtain a MS Degree in Counseling & Guidance and PPS credential at California State University, San Bernardino. Emmanuel's passion is working with youth in the education system to develop college readiness, character development, and professional growth. His goal is to promote and increase the college enrollment rate in his community. However, his overall desire is to help build students academically, professionally and personally.

CASC and the Emeriti Foundation celebrate Carolina Hernandez Osorio and Emmanuel Garcia for being outstanding students pursuing the important work of becoming professional school counselors!
