Company Aviation Safety Officer Workshop

April 20th, 2016

Montreal, QC

8:30am – 4:30pm

The Helicopter Association of Canada and the Canadian Council for Aviation & Aerospace are pleased to offer a Company Aviation Safety Officer Workshop.

How You Will Benefit

Due to changes in operational requirements and the need for Safety Officers to have a greater level of knowledge associated with the introduction of Safety Management Systems in all areas of Canadian civil aviation, the Canadian Council for Aviation and Aerospace has created a workshop to address the specific needs of operators in today's dynamic environment. Organized for participants carrying out the responsibilities of the safety manager in a company, this workshop not only meets the requirements of the Canadian Aviation Regulations for safety manager and operators managers training but will provide candidates with a deeper understanding of the various aspects of safety management and how to better develop, manage and assess effective safety management within their operations.

Workshop Description

Content covered in the course includes:

- Flight safety philosophy
- Human Factors and the decision making process
- Accident prevention
- The role of the flight safety officer as advisor to senior management
- Risk management
- Accident/incident management
- The aviation safety survey
- Emergency response plan
- Incident investigations
- Safety Management Systems

Participants will benefit from a comprehensive overview of the role and responsibilities of the Safety Management Officer while also providing a thorough understanding of how to manage the various aspects of a Safety Management System.

Intended Audience

- Operations managers
- Safety Officers
- Safety Managers
- Chief Pilot

For more information on course content please contact Florence Touré at the Canadian Council for Aviation & Aerospace at 613-727-8272 ext. 261 or at ftoure@avaerocouncil.ca
