

WHAT YOUR DONATIONS WILL PROVIDE

Students from the IDS Molloy Student Chapter have volunteered their services in the design of the dining room at the Edna Moran Family Shelter at the INN. The Mary Brennan INN of Long Island is a non-profit organization that provides food, shelter and long-term housing as well as support services to people who seek help and has a dedicated staff and volunteers.

Student teams are working on all stages of the design process from the initial interview to the finished product. They will produce plans, furniture selections, a color scheme and anything else necessary to create a beautiful, functional and home-like atmosphere for the 45 guests it serves.
