### About the KAFP-Foundation

Our mission is to promote the philosophy of family medicine, research, and education of Kansas Family Physicians. The KAFP-Foundation supports the future of family medicine by:

- providing medical students the opportunity to learn about family medicine in a rural setting;
- sending medical students to national meetings to gain experience for future practice in Kansas
- giving medical students and residents the opportunity to present scientific posters at the meeting; and
- providing residents the opportunity to participate in an international mission.

*Let's Move, Kansas* is aimed to promote an active, healthy lifestyle for all Kansans.
