

Act Now! Only a Few Days Left to Apply for the Million Hearts CVD Risk Reduction Model

By CMS Million Hearts

This is a wonderful opportunity to help the Centers for Medicare & Medicaid Services (CMS) with an important part of [Million Hearts®](#), an ongoing effort to prevent one million heart attacks by 2017. Submit your application for [Million Hearts Cardiovascular Disease Risk Reduction Model Test](#) (MH Model) before September 10, 2015.

Your involvement in the MH Model gives you the chance to play an active role in the test trial, important for determining what models are most effective in reducing cardiovascular risk. It's easy to apply—[two steps online](#), 30 minutes total—and participants will be recognized by CMS for their important contribution and receive financial incentive.

- ✓ The application process is relatively **quick and easy to complete**
- ✓ Participation in this important model represents **no new reporting burden**
- ✓ This model of care can help you **engage with your patients** to **improve health outcomes**
- ✓ The model offers **financial incentives** to participate

In addition:

- ✓ The **American College of Cardiology** has [endorsed](#) the MH Model – the first of its kind from CMS and the largest test of value-based prevention payment ever conducted.
