

Get involved: Say yes to a Committee

KAFP is pleased to offer the opportunity for you to get involved with your organization by volunteering to serve on a committee. Through committee involvement you can help determine the direction of family medicine. Click: <https://kafp.wufoo.com/forms/kafp-committee-interest-form/> to indicate the committees in which you are interested. Appointed committee members help form policy and make recommendations to keep the organization at the forefront of the specialty on a variety of topics affecting the specialty.

Please respond by **Monday, July 6** to ensure that your request is reviewed during our upcoming appointment process. If you have questions, please contact us at kafp@kafponline.org or 316.721.9005. Thank you for your interest!
