

# Deadline Extended for 2014 Meaningful Use Attestation to Medicaid EHR Incentive Program

By KDHE

Kansas eligible professionals now have until 11:59 p.m. (CDT) June 30, 2015, to attest to Meaningful Use for the Medicaid Electronic Health Record (EHR) Incentive Program for the 2014 reporting year.

KDHE announced that they hope to have their attestation system updated to allow attestations using the 2014 Flexibility Rule options by April 20. They extended the deadline to allow providers extra time to submit their meaningful use data. Contact Christina Rondash at KDHE at 785-296-2154 or [crondash@kdheks.gov](mailto:crondash@kdheks.gov) for questions about the 2014 attestation process.

## **How to Attest:**

Attestation requires the eligible professional to be registered with the Kansas Medical Assistance Program (KMAP). EPs must have their KMAP user ID and password. Submit meaningful use data to the [Registration and Attestation System](#), which includes [2014 Certified EHR Technology \(CEHRT\) Flexibility Rule](#) options.

To learn more, see the [Educational Resources](#) on the CMS EHR Incentive Programs website.
