

## National Public Health Week

By KHI

This is National Public Health Week, let's celebrate it! Celebrate National Public Health Week! Each year, the [American Public Health Association](#) (APHA) brings together communities across the United States to recognize the contributions and successes of public health and to highlight current issues that are important to improving the well-being of the nation.

This year marks the 20th anniversary of National Public Health Week. The Kansas Public Health Association (KPHA) and the Kansas Health Institute (KHI) are partnering to raise awareness of National Public Health Week across the state.

This year's celebratory theme is ***Healthiest Nation 2030***. Each day represents a different aspect of public health that is relevant both nationally and in Kansas.
