Calling all Electrical Contractors

Owners, managers, site supervisors, employees

Three Critical Liability Mistakes – Are You Making Them?

You don't expect to go out on a \$100 job and come back holding a \$3 million bill. But even small jobs can lead to major losses and ultimately, leave you footing the bill for it all.

This session *focuses on Faulty Work claims and their consequences*. As the MEL's recommended insurer, Federated Insurance has the vantage point of seeing the claims from their 600 electrical contractor customers across the country. They know the impact these losses can have on you, your employees, and your business.

Federated Insurance's Loss Prevention Consultant, Richard Frost, will lead a discussion on what they're seeing in the industry and how it relates to your experience. He'll help you identify the issues and learn how to effectively manage liability risks.

Attend a breakfast Information seminar

Victoria Inn Hotel and Conference Center

Tuesday, March 11th 7:30am to 9:30am

MEL Members \$35.00

Non Member \$45.00
