

# OCC HAS GREAT NEWS!

Ocean County College is partnering with NJIT to offer the last two years of classes for select B.S. degrees in Engineering on the OCC Toms River campus.

**First course to be offered Spring Semester 2017:**

**ECE-405 Electrical Engineering Principles (Required for NJIT's Mechanical and Industrial Engineering B.S. degrees)**

\*OCC Engineering Students can use ECE-405 as the Engineering Elective for OCC's Engineering A.S. degree.

- Students must have completed either OCC's PHYS-282 or NJIT's PHYS-121
- Current OCC students will pay OCC's tuition rate
- OCC Engineering graduates will pay NJIT's tuition rate

Our long-term objective is to allow students to transfer from OCC to NJIT without leaving Toms River campus.
